1	A lot of information was covered in short time. Great idea of creating a website for us to go to for more information and to try the different programs discussed. Would have liked more time to actually use some of the tools but realize this would have taken even more time.
2	It was too broad of an overview; contained very little why, when, where, and how.
3	Presenter assumed a certain level of sophistication; a bit more time explaining basics would have been helpful.
4	Go green- the presenter provided a website to access any information presented so we did not need copies of papers to carry around. Great idea to supplement the topic with a website resource because otherwise too much information for length provided.
