1	This workshop and the presenters were good. It was hard to follow the slides because the font was too small and they did not have handouts with them. I really tried to follow along but most of what they had to say really needed the visuals with it. They ran out of time at the end and cut some of the meat out. Great job delivering why you would use a balanced scorecard but I left pretty overwhelmed on where to start because there was too much information packed into the time frame. Great communicators and I could tell they were so proud of their product.
2	No handouts, too much information on each slide. The presenters have gone through the process of creating a balanced scorecard and should have been able to pass that knowledge on to their audience. I went into the workshop with high hopes and came out very disappointed.
3	They said they would email the slides-I hope they do as they would be beneficial!
